PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience designing, building, and deploying scalable web applications across government, healthcare, ERP, and SaaS domains. Proficient in API Development, Cloud Deployment, and Agile Methodologies, with expertise in Node.js, React.js, MySQL, MongoDB, and PHP. Experienced in end-to-end software delivery — from system architecture and REST API design through database optimization, dedicated server configuration, and production deployment. Passionate about automating manual workflows and delivering measurable business impact. Seeking full-stack or backend engineering roles.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, PHP

Frontend: React.js (React 18 + Vite), HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST API Design, API Development, PHP

Databases: MySQL, MongoDB, SQL Server, Sequelize ORM

Server & DevOps: Dedicated Server Setup & OS Configuration, AWS EC2, Cloud Deployment, Server Management, Azure (Learning)

Tools & Concepts: Git, GitHub, Postman, VS Code, SSMS, System Design, RBAC, OOP, SDLC, Agile Methodologies, IoT Integration

WORK EXPERIENCE

Software Developer / ERP System Developer

Jan 2025 - Present

SearchFirst Technologies | Erode, Tamil Nadu

- Developed and maintained full-stack web applications and ERP platforms — including a **Tamil Nadu Government portal (DOTE)** — collectively serving **50,000+ end users**; configured dedicated production servers from OS level with 99.9% uptime
- Engineered multi-role RBAC systems and complex server-side business logic, reducing manual administrative workload by **~60%** across client platforms
- Integrated third-party payment gateways enabling **100% digital transaction processing** for enterprise and government clients, replacing legacy paper-based workflows
- Designed RESTful APIs with Node.js and Express.js; optimized MySQL and MongoDB schemas, improving query performance by **40%** across production applications

Web Developer Intern

Jun 2024 - Dec 2024

SHENai Private Software Solutions | Erode, Tamil Nadu

- Delivered **3+ client-facing web applications** using PHP, MySQL, HTML5, CSS3, and JavaScript; implemented backend logic and integrated relational databases, reducing manual reporting time by 25%
- Improved UI performance and application responsiveness by **30%** through systematic debugging, code refactoring, and performance profiling

Full Stack Developer | Personal & Open Source Projects

2023 - Present

GitHub | Remote

- Independently designed and shipped **5+ production-grade full-stack applications** across healthcare, payroll, ERP, and IoT domains — solving real-world institutional and enterprise problems with scalable architecture

KEY PROJECTS

Government Admissions Portal — DOTE, Tamil Nadu

Jan 2025 - Present

Tech Stack: React 18 + Vite, Node.js, Express.js, MySQL, Sequelize ORM, CCAvenue Payment Gateway

- Built and deployed a large-scale government admissions portal for DOTE, Tamil Nadu, serving **50,000+ students** statewide; set up and manage a dedicated production server from OS installation with **99.9% uptime**
- Implemented 3-role RBAC, server-side filtering logic, and payment gateway integration — processing 100% of fee transactions digitally and eliminating paper-based workflows

Campus ERP System — Nandha Engineering College

Jan 2025 - Present

Tech Stack: PHP, SQL Server, JavaScript, Bootstrap

- Designed and deployed a full-scale institutional ERP for Nandha Engineering College managing **1,000+ student records**, attendance, and academic reporting — delivered under a certified 1-year engagement

- Hospital Management System**

2025
- Tech Stack:** *React.js, Node.js, Express.js, MySQL*
 - Production-deployed healthcare platform managing patient records, appointments, and billing; **reduced manual data entry by 70%** with role-based dashboards for clinical and administrative staff
- Enterprise Payroll Management System**

2025
- Tech Stack:** *Node.js, Express.js, MongoDB, React.js, Tailwind CSS*
 - Payroll platform with JWT authentication, 3-role RBAC, and salary processing APIs managing **100+ employee records**; reduced MongoDB query execution time by 35% through schema optimization and indexing
- Smart Attendance System — RFID Based (Winner: Innovation Day 2024)**

2024
- Tech Stack:** *Arduino, RFID, PHP, SQL Server*
 - Award-winning IoT system automating attendance for **200+ students** using Arduino RFID hardware with a PHP/SQL Server backend — **eliminated 100% of manual attendance recording**

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2023 - Present

Nandha Engineering College, Erode, Tamil Nadu | Anna University Affiliated

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development Certification (2023) — Udemy | Python Programming Certification (2023) — Coursera | AI & ML Certification (2024) — NPTEL
- Internship Certificate (2025) — SHENai Private Software Solutions | 1-Year Experience Certificate (2025) — Nandha Engineering College
- Winner — Unique Project Award, Innovation Day 2024 (IoT Smart Attendance System — automated tracking for 200+ students)
- Delivered live government-scale portal for DOTE, Tamil Nadu, serving 50,000+ users with **zero critical downtime** since launch — managing full dedicated server infrastructure end-to-end
